

## BLINDAX CLASS 20W-50

Multigrade oil developed with Chain Polymer technology that maintains its viscosity at high temperatures, improving service life in gasoline engines. Ideal for light vehicles such as: cars, SUVs, Pick Up among others.

Blindax Class 20W-50 is formulated with the state's Group II base oils and a select package of additives that ensure optimal performance in passenger vehicles that withstand extreme temperatures and various operating conditions.

### APPLICATIONS

For use in gasoline-powered cars, vans, light-duty trucks that require this type of lubricant, operating under high operating speeds and in a wide range of temperature conditions.

It can also be used in engines converted to natural gas, CNG and LPG.

### FEATURES

- It contains a technology of anti-wear additives, with low sulfur and phosphorus content that protect the moving parts inside the engine.
- Excellent detergency guaranteeing optimal cleanliness and its dispersant additives prevent the formation of carbonaceous deposits and the formation of sludge in the engine.
- Excellent oxidation resistance.
- Excellent protection from the start due to its multi-grade viscosity which can be adapted to different climates, protecting against wear.

### SPECIFICATIONS

Meet and exceed service levels:

API SG/CD

### HEALTH & SAFETY

This product does not pose a risk to health or safety as long as they maintain good personal and industrial hygiene practices. In case of contact with skin, wash immediately with soap and water.

Wear gloves when handling used oils. Do not dispose of the waste down the sewer. Take care of our environment.

## TYPICAL CHARACTERISTICS

PHYSICOCHEMICAL TESTS	UNIT	METHOD	AVERAGE VALUES
SAE Grade		SAE J 300	20W-50
Density @15°C	Kg/L	ASTM D-4052	
Kinematic viscosity @ 40°C	cSt	ASTM D-445	
Kinematic viscosity @ 100°C	cSt	ASTM D-445	
Viscosity Index		ASTM D-5293	
Flash Point	°C	ASTM D-92	
Pour Point	°C	ASTM D-97	
Total Basic Number, TBN	mgKOH/g	ASTM-D2896	

In manufactured batches, there may be slight variations in the average values, which do not affect the quality or performance of the product.
